POE Switching HUB

## ZCS POE-5005-5P-65W

### Key Feature

- 5 Port-Switch (POE 4 Port)
- POE Distance 200m
- 10/100 Mbps
- IEEE802.3/IEEE802.3u/IEEE802.3af/at
- Surge Protection

| Parameter             | Detail  |
|-----------------------|---|
| Fixed Port            | 5 Port ( PoE 4 Port) ~ 10/100 Mbps Base-TX port |
| POE Distance          | 200 meter                                       |
| LED Indicator         | PWR , PoE, Link/Act, VLAN                       |
| Traffic Control       | IEEE802.3/IEEE802.3u Full-duplex flow control   |
| PoE Standard          | IEEE802.3af                                     |
| EMI Standard          | FCC, CE Class B                                 |
| Input Voltage         | 100-240VAC                                      |
| Power Consumption     | 65W   |
| Operating temperature | -20 ~ + 40°C                                    |
| Other feature         | Surge Protection, Built-in Noiseless FAN        |
